Me, Myself and ART

Visual Arts

In Me, Myself and ART, artists will use their imagination to examine the features of their own "self." Artists will work with chalk pastels to draw an abstract selfie inspired by artist, Sandra Silberzweig. We will discover the art of symmetrical design as well as positive and negative space in a layered paper collage. Students will discover the art of embossing with foil while designing a work of art in profile.

We will create and draw our dream pet filled with patterns and bright colors, influenced by artist, Heather Galler. Let's dream big, while using our own selves as inspiration! As always, dress for mess!
